

TECHNICAL CARD

LED Solar Street light

Pursuant to the provisions of the WEEE Act, it is forbidden to put waste equipment marked with the symbol of a crossed out bin together with other waste. The user, wishing to get rid of electronic and electrical equipment, is obliged to return it to a waste equipment collection point. There are no hazardous components in the equipment that have a particularly negative impact on the environment and human health.

This autonomous solar system is designed to illuminate park paths, sidewalks, yards, roads. The set consists of a solar panel, an LED street lamp and a remote controller. The system does not need to be connected to the mains to work, but works by converting sunlight into energy to power the lantern. Energy accumulates in the battery during daylight, after which the lamp can light for up to 12 hours. The lamp is protected from environmental influences such as rain, snow, dirt and mechanical damage.

General parameters

Light source replaceable	no
---------------------------------	----

Type of light source

Dimmable	no
-----------------	----

Technology	LED
-------------------	-----

VIDEX VL-SLSO-605

INDEX: VL-SLSO-605

Electrical parameters

Cable length	1 m
---------------------	-----

Electric shock protection class	III
--	-----

Photometric parameters

Luminous flux	4300 Lm
----------------------	---------

Correlated color temperature	5000K (neutral white)
-------------------------------------	--------------------------

Beam angle	90 × 130°
-------------------	-----------

Color rendering index (CRI)	Ra > 80
------------------------------------	---------

On/Off cycles	20000
----------------------	-------

Lifetime	50000 h
-----------------	---------

Additional information

Battery power	60 W
----------------------	------

Place of installation	Pillar
------------------------------	--------

Place of application	outdoor
-----------------------------	---------

Impact protection	IK07
--------------------------	------

Housing colour	Gray
-----------------------	------

Minimum distance from the illuminated object	0.5 m
---	-------

Diffuser material	Polycarbonate (PC)
--------------------------	--------------------

Motion sensor	no
----------------------	----

Operating temperature range	-20° +50°C
------------------------------------	------------

Battery type	LiFePO4
---------------------	---------

Battery voltage	3.2 V
------------------------	-------

Battery capacity	45000 mAh
-------------------------	-----------

INDEX: VL-SLSO-605

-  The product must be used outdoors
-  Minimum distance from the illuminated object
0,5 m
-  Class III protection against electric shock - ensured by supplying a specific product with a safe very low voltage (SELV) without the risk of creating a voltage above safe levels
-  The product meets the requirements of EU directives
-  It is forbidden to throw away waste equipment marked with the symbol of a crossed-out bin with other waste
-  — Effective light beam angle
90°-130°
-  — Ra > 80 - color rendering index
-  — Rated On/off cycles
ON/OFF
20 000
-  — The product withstands a medium impact (e.g., from a blunt object)
IK07
-  — Nominal lifetime (hours)
50 000 h
-  — The product is incompatible with light regulators
Not Dimmable
-  — Operating temperatures range
-20°C +50°C
-  — The product does not contain mercury
Free
-  — Class of protection against dust and moisture. The product has full protection against dust and water jets from all directions
IP65
