

TECHNICAL CARD

Facade double-sided luminaire

Pursuant to the provisions of the WEEE Act, it is forbidden to put waste equipment marked with the symbol of a crossed out bin together with other waste. The user, wishing to get rid of electronic and electrical equipment, is obliged to return it to a waste equipment collection point. There are no hazardous components in the equipment that have a particularly negative impact on the environment and human health.

LED architectural luminaire - used for architectural lighting of facades of buildings, structures, fences, balconies, terraces, etc. It has a high degree of resistance to external influences, a wide range of operating temperature and voltage. After installation, it does not require maintenance during the entire period of operation. Long-lasting, has a high degree of protection against the negative

VIDEX-6W-EVAN-BLACK

INDEX: VL-AR06-062B

effects of the external environment. The luminaire has high impact protection and a high degree of dust and moisture protection.

General parameters

Light source or containing product	Containing product
Control gear replaceable	no
Light source replaceable	no

Type of light source

Dimmable	no
Technology	LED
Energy efficiency class of the contained light source	E

Electrical parameters

On-mode power (Pon)	6 W
Rated voltage, frequency	AC 220-240 V, 50/60 Hz
Rated current	42 mA
Input interface	Terminal block
Electric shock protection class	I
Energy consumption in on-mode of the light source (kWh/1000h)	6

Photometric parameters

Correlated color temperature	2700K (warm white)
Useful luminous flux of the contained light source (Φuse)	660 Lm

INDEX: VL-AR06-062B

Beam angle	180°
Color rendering index (CRI)	Ra > 80
On/Off cycles	20000
Lifetime	50000 h
Useful luminous flux of the light source reference	in a sphere (360°)
Colour consistency in MacAdam ellipses (SDCM)	<6 (2700K)
CRI Min	Ra 80
CRI Max	Ra 88

Additional information

Place of installation	Wall
Place of application	indoor, outdoor
Impact protection	IK07
Housing colour	Black
Ultraviolet radiation	no
Operating temperature range	-25° +50°C
Suitable for installation in normally flammable surfaces	yes
Mercury content	Does not contain
Ingress protection	IP54
Housing material	Aluminum

Dimensions

EAN	4820246480918
Height	106 mm
Depth	30 mm

Width	115 mm
In the package	1 pc.
Outer box	20 pcs.
Unit nett weight	300g

Signs marking goods

Packaging marking	CE, Utilization

Allegro opt Sp. z o.o., ul. Mierzeja Wiślana 11,
30-732 Krakow, Poland.

The product must be used indoors

The product must be used outdoors

Protection against electric shock class I. A product in which the means of protection against electric shock, in addition to the main insulation, is an additional protective circuit connected to the grounding of the power supply network

The product can be installed and used in/on normally flammable surfaces

The product meets the requirements of EU directives

It is forbidden to throw away waste equipment marked with the symbol of a crossed-out bin with other waste

— Rated beam angle

— Ra > 80 - color rendering index

— Rated On/off cycles

— The product withstands a medium impact (e.g., from a blunt object)

— Nominal lifetime (hours)

— The product does not emit ultraviolet light

— The product is incompatible with light regulators

— Operating temperatures range

— Colour consistency in MacAdam ellipses (SDCM)

— The product does not contain mercury

— Class of protection against dust and moisture. The product is protected against the ingress of water and dust particles into the housing
